

NEW GENERATION FLOREAL FRIGATE

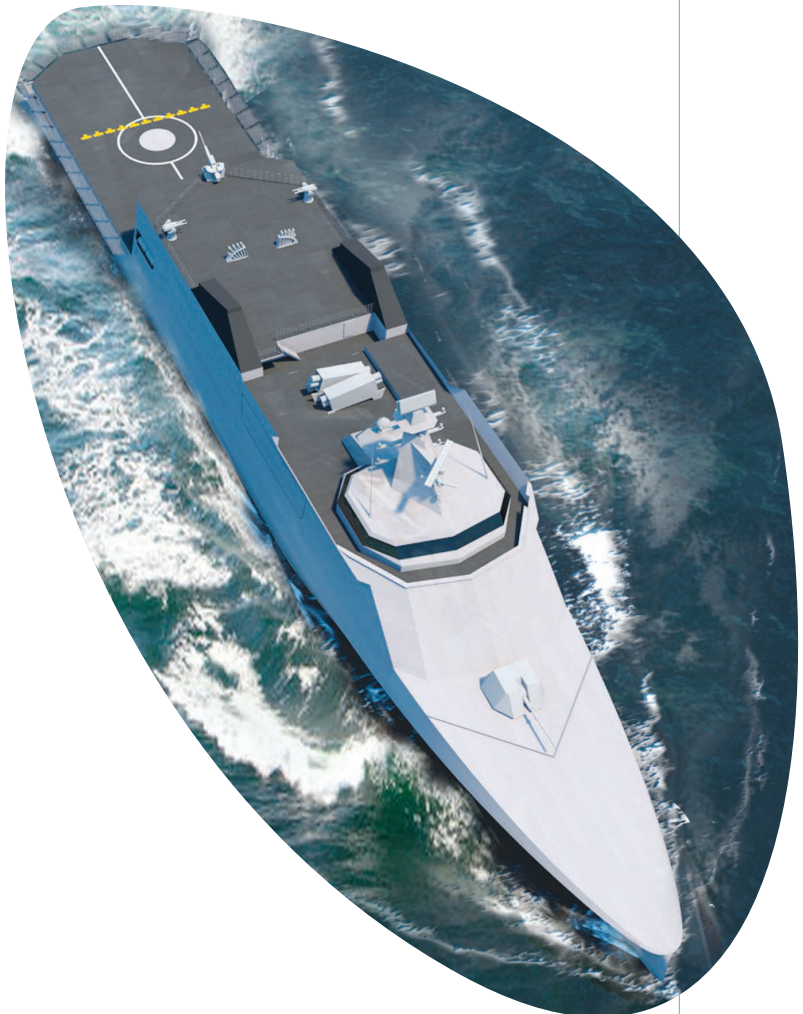

Reference builder of complex ships, STX France is renowned also for its activity on the naval ships market with products ranging from OPVs to LPDs including frigates.

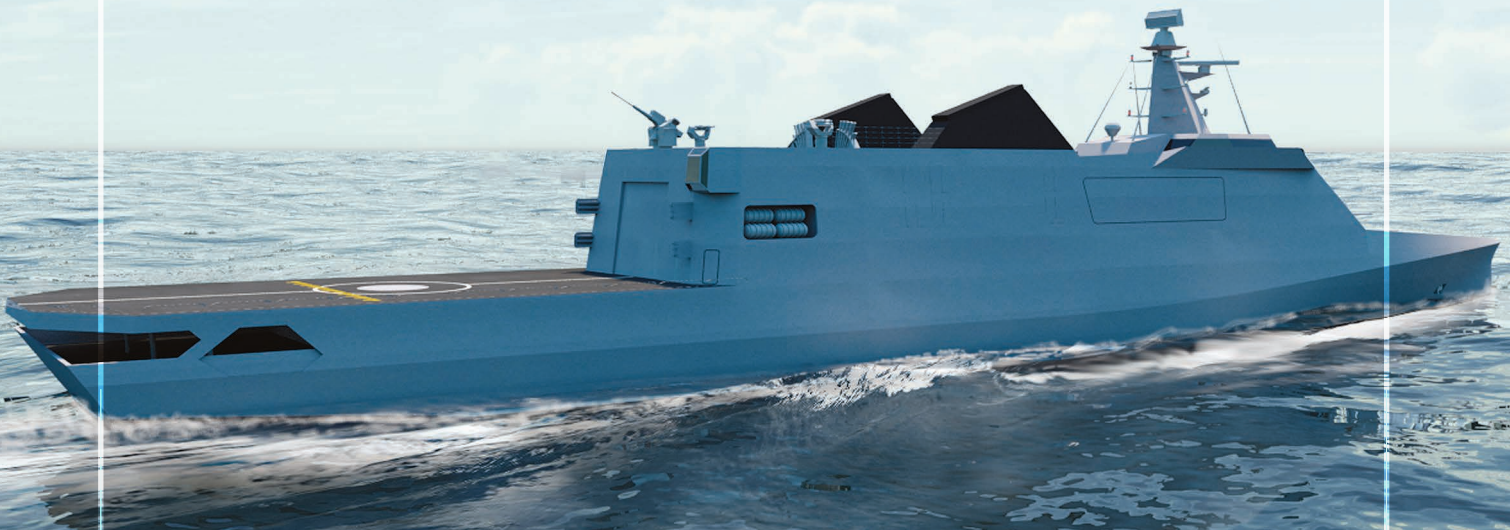

STX France has built a total of 8 units of the Floreal Class Frigate for the French and Moroccan navies. Based on this sea proven design reputed for its large autonomy and robustness, STX France proposes today a new upgraded version called the New Generation Floreal Frigate (NG2F).

From the existing sea proven design, the NG2F Frigate has been upgraded to a top service speed of 25 knots, a stealthy superstructure and state of the art weapon system capabilities to conduct anti-air warfare, anti-surface warfare, anti-submarine warfare and electronic warfare operations.

The embarked 10 t class helicopter and associated facilities authorise her to ensure extended operational capability.

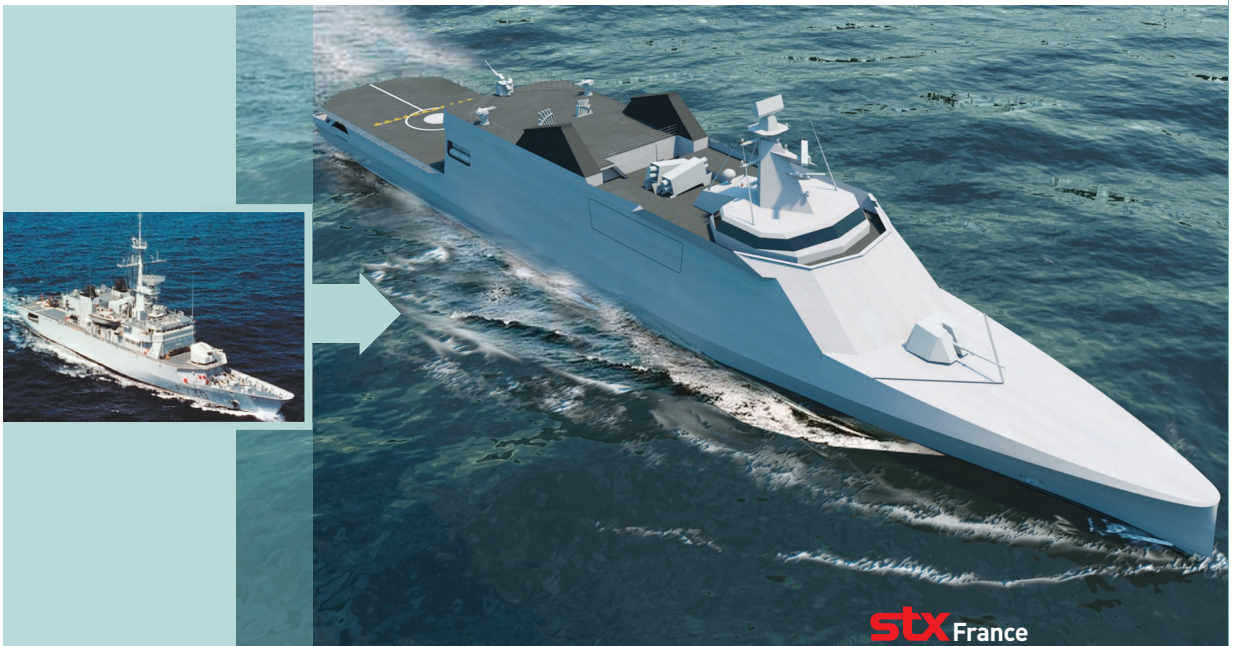

NEW GENERATION FLOREAL FRIGATE

TECHNICAL SPECIFICATIONS

Length	101 m
Breadth	15.5 m
Speed	25 knots
Range	4,500 NM at 15 knots
Crew	80
Special personnel	45
Weapon systems	2 twin SSM launchers 2 twin SAM launchers 2 triple lightweight torpedo launchers 1/76mm – 1/35mm – 1/25mm – 4/cal.50 2 multiple decoy launchers 10 t class helicopter 2/7m RHIBs
Electronic equipment	3D Radar with IFF – S Band Radar – X Band Radar 1 Hull sonar – 1 Towed array sonar 1 Integrated Fire Control System up to 10 consoles 1 Electronic warfare system
